PROBLEMATIC REMARKS

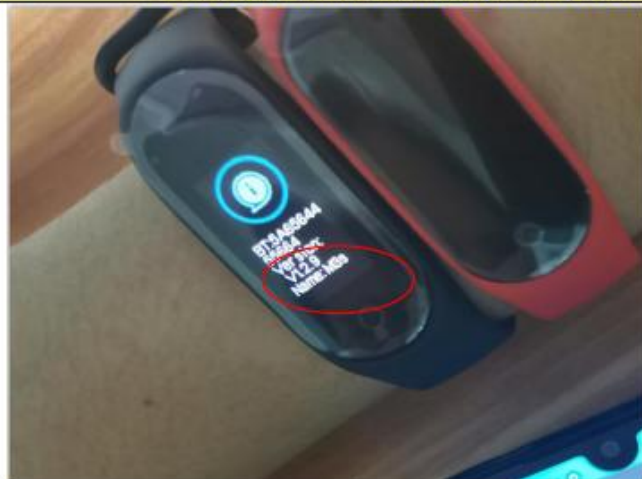

1. Found 8pcs out of 125pcs the Bluetooth name was M3S instead of M4S, which all mentioned at AQL table. The factory said they would rework all, which needs to be confirmed by client.
2. 100% of the color box was not sealed well.
3. For water proof test, the factory refused to immerse the watch in water for 30 minutes to test and only agreed to shower on the watch, details please refer to video.
4. The inspector checked 2pcs of the actual product net weight, both was around 20g instead 14.3g showed in the instruction.
5. The inspector charged the battery with 5V, please confirm the 3.7V showed in instruction with factory.
6. The factory did not allow inspector to check internal construction review for battery with marks and chipset, as it would break the product.
7. The factory could not provide the equipment to do battery capacity.
8. For the battery charge test, as the products all had basic electricity, the inspector could not check the full charge time, only checked the function of charge.
9. For the sports function, as the limited conditions, the inspector could not check the function of every sport showed in the menu.
10. The size and resolution ratio of the screen could not be checked during the inspection.
11. There was no condition to check the sleep monitoring function at the inspection site.
12. The inspector checked the basic function of blood oxygen, heart rate and blood pressure, found all
